Bay Delta 14-0917 (3).xlsx

Team,

I asked Gene Sylls to put together the ghant chart for Bay Delta. Please review and modify as appropriate. My purpose in doing so is to get clear in my own mind the various permissions/permits that are underway, but also to show that NEPA is just the first of many. When I meet with Cynthia the middle of Oct, I want to show her how the NEPA process fits within the much more complicated whole.
